

DOING IT RIGHT THE FIRST TIME

*Technology and materials may evolve at the speed of light,
but certain concepts are unchanging.*

Dr. Sergio Rubinstein

About the Speaker:

Dr. Rubinstein received his DDS in 1980 and completed his specialty training in Periodontal Prosthesis at the University of Illinois at Chicago in 1982. He was an Assistant Professor at the dental school until 1992. He is co-inventor of custom abutment for misaligned implants. He has lectured nationally and internationally and has published articles in Adhesive Dentistry and Implant-Prosthodontics.

Objectives:

1. The multidisciplinary team approach is more essential than ever if we want to achieve the cosmetic results patients expect.
2. Steps to fabricate excellent fitting restorations will be described, thus eliminating costly and unnecessary occlusal adjustments, and delivering esthetic and functional restorations.
3. Luting and cementing techniques will be discussed to control sensitivity and eliminate failures.
